WEDNESDAY EVENING, MARCH 2.

THE BELLED BUZZARD KILLED.—Advices that have reached us, state that the belled buzzard that has been spoken of in the south for years and which was recently seen in this county, was shot the other day by J. C. Corrington at Tunis, Texas. The bell was well toned, of brass, and about two and a half inches across the base. It was hung to the bird by a copper wire, twisted around the neck. There was no chafing, the skin being protected by an abundance of down; "1870" was scratched on the narrow, flat top of the bell. The last heard of the bird was in Virginia, a short time ago, and it was presumably on its way south at that time. The constantly recurring visits of the bird to this locality have been a standing local for a number of years and it is a matter of great regret that we will not, in the future, be able to chronicle the wanderings of the bird. —Centerville (Md.) Observer.

THE CHURCH AND THE KNIGHTS.—The American bishops at Rome take a favorable view of the organization known as the Knights of Labor. Cardinal Gibbons has filed with the vatican a statement of the nature of the organization, and the attitude the church should take towards it. He says any condemnation of the knights might alienate the sympathy of the laboring classes from the church. He treats the alarmist theories as puerile, and says one third of the members are Roman Catholics. He also says it is not a secret society in the sense condemned by the church, and is therefore exempt from canonical censure. He thinks the order will be beneficial in settling the great questions between labor and capital.

FOUR MEN DROWNED.—Capt. John Keller, of the schooner Lilly Dale, of Baltimore, reports the drowning from his vessel of three men on Sunday night, off South river. Two were colored men whose names are unknown. The other was George Roberts, Capt. Keller's man named Geo. Miller off his vessel, in South river, last Tuesday.

A countryman at a prominent Philadelphia hotel a few nights ago blew out the gas, but not before he had noticed a little green tag suspended from the burner. He prepared for slumber, but his curiosity got the better of him, and he lit the gas to read the inscription. It was, "Do not blow out the gas or it will cause immediate death." There was an extra clause in the countryman's prayer blessing the creation of curiosity.

"It Knocks the Spots." and everything in the name of eruptions, blotches, pimples, ulcers, scrofulous humors, and incipient consumption, which is nothing more nor less than scrofula of the lungs, completely out of the system. It stimulates and invigorates the liver, tones up the stomach, regulates the bowels, purifies the blood, and builds up the weak places of the body. It is a purely vegetable compound, and will do more than is claimed for it. We refer to Dr. Pierce's "Golden Medical Discovery."
